### ABOUT THE SPEAKER

James Kohner, D.D.S., is originally from Cleveland, Ohio. He received his undergraduate degree from The Ohio State University, and his dental degree from Case Western Reserve University Dental School. His certification in Periodontics is from the Boston University School of Graduate Dentistry.

He brings 35 years of practice experience, and more than 25 years teaching to help him more fully understand the clinical needs and daily challenges faced in clinical practice, and thus is well qualified from a clinical perspective to help find solutions to those needs.

Dr. Kohner is a leading specialist in the periodontal world of dental health. He is an expert in the management of periodontal infection using non-surgical methods, as well as being current on the latest procedures relating to surgical therapy. He has presented at the American Academy of Periodontology meetings for many years, and presented lectures at the Harvard School of Dental Medicine.

He has presented courses on Crown Lengthening, Soft Tissue Grafting, and Periodontal Surgery to a wide range of audiences, including the Texas Dental Association and Star of the South in Houston, as well as the Chicago Midwinter, California Dental Association, Greater New York, and many other state associations as well as the American Dental Association. His presentations have taken him all over the US and to 8 foreign countries.

The speaker receives no support from any commercial organization and does not promote any commercial products or sell any tapes, books, instruments, forms or other materials for this course.

### SEMINAR LOCATIONS

**FRIDAY, APRIL 25, 2025**

**Hilton Garden Inn CO Springs Airport**  
2035 Aerotech Drive • Colorado Springs, CO 80916  
(719) 622-0300

Day of Parking: **Complimentary**. Use open lots.

Rooms: Reserved at **\$99/night** until 3/24. Mention Concord Seminars.

**SATURDAY, APRIL 26, 2025**

**Hilton Garden Inn Denver Tech Center**  
7675 E. Union Ave • Denver, CO 80237  
(303) 770-4200

Day of Parking: **Complimentary**. Use hotel lots.

Rooms: Ask for best available rate when reserving.

### COURSE DETAILS

#### TUITION (PER PERSON)

**\$310** - Dentists

**\$205** - Hygienists & Auxiliaries

**\$180** - RDH & Aux register &

attend w/ Dentist\* (\*Staff rate applicable only when Dentist pays full price & registers at the same time)

Register Online / Phone / Mail

**EARLY BIRD TUITION**

Save **\$10/person** when registering on or before **February 15**

Dr. = \$300  
RDH/Aux = \$195  
Staff = \$170

**LATE FEE:** Add **\$15/person** if registering after April 18.

**INCLUDES:** Continental breakfast, coffee break, lunch, dessert break, bound course manual & certificate for **8 CE**

**Credit Hours.\*** \* 8 CE Credit Hours are awarded based on attendance of entirety of lecture. Late arrival or early departure will result in adjustment of credit.

**REFUND POLICY:** Full refund less a \$50/registrant non-refundable deposit with an emailed notice received **NO LATER** than **4/18**. No refund will be given after that date. A 2 yr credit (w/ \$50/person admin. fee) for another seminar will be issued.

CDS reserves the right to cancel this seminar at any time with no liability to registrants other than full refund of registration fee. CDS is responsible for the seminar, but not for the accommodations, travel or personal services required in connection with the program. In the event of an "act of God" leading to the cancellation of this seminar, the following options are available. If CDS reschedules the course within 90 days, you may: (A) re-register at no additional charges; or (B) receive a credit good for two years. No refunds for rescheduled "act of God" cancellations.

**JAMES KOHNER, D.D.S.**

**What others are saying about this course/speaker:**

“I like how the information presented are evidence based dentistry and lecturer is well experienced, honest and knowledgeable.”

“It was more in depth with the surgical aspect of perio. I liked everything discussed. I loved the perio surgery pictures, treatments and discussions. Excellent.”

“Dr. Kohner was very thorough and answered all the questions that I had!”

“I liked Dr. Kohner’s style of presentation and knowledge of the subject.”

“Very informative about periodontal disease and treatments that work?”

Do not delay delivery—Time-dated material

# “PERIODONTAL CONCEPTS FOR THE MODERN DENTAL PRACTICE”

## COURSE OUTLINE

## COURSE DESCRIPTION

### I. Diagnosing, Treating, and Maintaining Periodontal Disease

- A. Forecasting predictability of treatment
- B. Rationale AGAINST plaque control
- C. Role of occlusion in treating and maintaining Periodontal Disease
- D. Furcations - Can they really be managed?
- E. Teeth vs. Implants
  - 1. Are we saving enough teeth?
  - 2. Role of long-term maintenance care
- F. Bone sets the tone in managing predictable results
  - 1. Role of “Bone Sets the Tone” vs. “Soft Tissue Management” - Which is key and why?
  - 2. Role of Hygienist in patient education
  - 3. Osseous concepts
    - a. Bone contouring concepts and fallacies
    - b. Managing furcations - Tunnel furcations or not?

### II. Soft Tissue Grafting – making soft tissues more maintainable and restorations more predictable

- A. Answer the question: “To Graft or Not to Graft?”
- B. Which soft tissue grafts are most predictable and which are not?
- C. Which graft is especially suited to cover exposed cuspid roots?
- D. Difference between Gingival Grafts and Free Gingival Grafts
- E. Role of grafts in obtaining predictable restorative results
- F. The “Gold Standard” for soft tissue augmentation
- G. Why we focus on FGG and CTG
- H. “To Graft or Not to Graft” decision tree:
  - 1. No recession present – do we graft?  
*(Hint: Sometimes Yes, and sometimes No)*
  - 2. Recession is present – do we graft now?
  - 3. How does a restoration influence these decisions?
- I. Examples of FGG and CTG

### III. Beating Up on Periodontal Disease – A Minimally Invasive Technique

- A. How effective are patients with their oral hygiene care?
  - 1. Not so good?
  - 2. Why, and what can we do about it?
- B. A simplified approach to oral care at home
  - 1. Does it really work?
  - 2. Compliance
- C. Treating Pockets or Bacteria - Which one matters more?
- D. Indications for Antimicrobial Treatment
  - 1. Gingivitis to Advanced Periodontitis
  - 2. Active Suppuration
  - 3. Previously treated and failing Periodontitis
  - 4. Near terminal dentition from Periodontitis
- E. Protocol
  - 1. Role of bacterial culturing
  - 2. Role of antibiotics
- F. Treatment - Surgical and non-surgical approaches explained
- G. Case examples
  - 1. Surgical
  - 2. Minimally Invasive
  - 3. Scaling and Root Planning
- H. Home maintenance protocols - Treating pockets or bacteria?

This course will clarify diagnosis and treatment planning to help hygienists and dentists feel comfortable with stabilizing periodontal conditions and creating a predictable foundation for successful ongoing maintenance and restorative care. The topics covered will include diagnosis, prognosis, minimally invasive anti-microbial methods, osseous concepts, role of trauma from the occlusion, and predictable methods for patient motivation that will provide a key cornerstone for long-term successful maintenance care. This course is designed to enhance or develop skills in basic periodontal diagnosis and treatment planning, while at the same time showing the long term potential for a non-surgical minimally invasive approach.

An evidenced based method for minimally invasive management of moderate to advanced periodontal infection will be presented. We will discuss why targeting the bacteria and not the pocket is oftentimes the best approach. We will explore ongoing maintenance, an obvious key factor for long-term success, and introduce methods that patients can manage at home without being too complicated. With this approach compliance is typically improved versus traditional efforts of getting people to floss, which only disappoints clinicians when patients do not comply.

In addition, see how applying principles of periodontal soft tissue grafting can be diagnosed at a typical hygiene appointment. Different types of soft tissue grafting and their relationship to recession and obtaining root coverage will be discussed. You will also learn ways patients can obtain soft tissue coverage of those maxillary cuspids that are either esthetically displeasing or sensitive.

### LEARNING OBJECTIVES

*At the completion of this course the participants should be able to:*

- Understand the various periodontal disease diagnostic factors
- Articulate case for and against plaque control
- Understand long term maintenance care – a foundational concept
- Discuss occlusion and it’s role in periodontal disease
- Discuss whether or not to treat furcations and if they can be maintained over time *(Hint: Yes!)*
- Identify the role of Diamine Fluoride in adult maintenance care
- Outline the various minimally invasive antimicrobial methods
- Explain simplified, yet effective, self-care for patients at home
- Understand how soft tissue grafting will enhance restorative results
- Explore different types of soft tissue grafting and their relationship to recession and obtaining root coverage
- Understand what types of soft tissue grafting will stop recession and which will cover exposed root surfaces

*Dr. Kohner’s presentation is of a lecture format that includes up to date literature evidence for his statements. Multiple case reports with radiographic evidence of healing will illustrate the potential for methods being discussed. Many opportunities for questions will be available throughout the day.*

*Confirmations will be emailed 2 weeks prior to the seminar. Please provide a valid email for each registrant attending.*

## REGISTRATION FORM

Cost: **\$310** for Dentists / **\$205** for RDHs and Aux. / U.S. Funds **\$180** for RDHs + Aux. registering w/ Dr *(see above for details)*  
**Early Bird Rate:** Deduct \$10/registrant if before **2/15**; **Late Fee:** Add \$15/registrant if after **4/18**.  
 Please *clearly* enter your name as it appears with the State Board of Dental Examiners for your CE credit.

**Refunds / Cancellation Dates:**  
Please see policy on reverse side. By registering, you agree to the Terms of Policy.

PLEASE INDICATE DATE  **4/25/25 • Co. Springs, CO**  
 YOU WANT TO ATTEND:  **4/26/25 • Denver, CO**

Please provide a unique email address for all registrants as we will send confirmations, payment receipts and last minute course notifications to all attendees. We do **not** share or sell any information given to us.  
 *Email and/or Text me to hear about sales, discounts and upcoming seminars.*
